

DYNA-STORE™

The all new core storage system

FAST • SECURE • STACKABLE • TRANSPORTABLE

DYNAMICS G-EX, DYNA-STORE™ CORE STORAGE MANAGEMENT SYSTEMS DELIVER THIS UNIQUE APPROACH TO HANDLING YOUR MOST VALUED ASSETS. THIS IS WHERE NEW MEETS OLD WITH THE RELEASE OF A SYSTEM LONGED-FOR BUT NEVER ACHIEVED...UNTIL NOW.

VERSATILE

The DYNA-STORE™ has the capacity to store all trays, metal or plastic and in all sizes ranging from BQ to PQ.

TRANSPORTABILITY

Never construct, de-construct or over handle again, thanks to DYNA-STORE™ fully assembled unit, it arrives on site complete. With forklift guides to the front and rear of the cage, relocate the DYNA-STORE™ whenever necessary, and wherever required.

STACKABLE

These units are fully Certified, and built to Australian Standards. Each shelf is certified to hold up to a 45KG load, and the rack itself is certified to hold 1.5tonne of core trays.

END LOADING

With the market ever increasingly moving towards plastic trays, an end loading rack will prevent the sagging in the middle of the trays that can occur in a side loading racking system

Dyna-Store™ Core Management Racking System

Operation drill-down!

DYNA-STORE™

The all new core storage system

FAST • SECURE • STACKABLE • TRANSPORTABLE

ACCESSIBLE

Never lift off all the trays on top to access the bottom trays again, each shelf is accessible and easy to slide in and out making old core records simple to retrieve.

WEATHER RESISTANT

The optional extra seal around the doors provides resistance to the elements, keeping your core in pristine conditions even when stored outside.

LIFTING LUGS

The optional lifting lugs are each rated to 1.2 Tonne. These are aftermarket extras, should you require the need to lift from above with a HIAB.

SECURITY

A 'Secura' strip down the centre of the doors, provides extra security and protection from the elements. Also comes with a bolt through lock which enables the user to padlock the doors if necessary.

SPACE EFFICIENT

The racks are certified to be able to be stacked 3 high, within enclosed areas (Building or Shed Structure)
